The home has been developed by a luxury home builder that has built and bought numerous multi-million dollar homes in Mexico, The Caribbean and the United States. The home is situated on a third row lot with an easement for easy beach access across the street in PLAYACAR PHASE 1. The project is designed as a Mediterranean style home that blends interior and exterior space to maximize the temperate climate of the region.

The home comes professionally furnished and ready to move into including all high quality linens, dishes, art work and everything else you would need to begin your vacation or long term stay.

This current home is acting as a "model home" that shows the quality of the finishes and interior design for all the homes this owner is developing in the region.
